Hey Will,

I agree with everything in you mentioned. I also wanted to point out that the response letter from PPG focuses entirely on lead in groundwater. It seems they are willing to concede the soil lead contamination but they are digging in on the

Ex. 5 AC/DP

Also, you may have noticed but Woodard and Curren took their name off the FS. I am not sure anyone knows what to do in this situation. Also, I am not sure if we walk back some statement that they will put their name back on.

Josh

Forwarding the FS from PPG. Sorry, I missed you on my initial email out to everyone. It looks like they remove any statement that associates a contaminant with a PRP. I am surprised they actually focused their review but I am still reviewing.

Let me know if you cant access the file.

Thanks,

Josh

Subject: Riverside Industrial Park Superfund Site- Final Feasibility Study Report- June 30, 2020

Good afternoon Josh,

Below is a download link for the Riverside Industrial Park Superfund Site Final FS Report. This report is being submitted on behalf of PPG.

https://woodardcurran-my.sharepoint.com/f/p/cdowling/EmbmJJHDFOBEJRvdH7BjgIBFnB9RK_FcHIPYxeNlr5k9A?e=4PMrQ5

Let me or Christin Dowling know if you cannot access the document. The file is set for anyone to have access and will be active until July 10, 2020, 2020.

Ken
